EDUCATION

Aditya Junior College

12th Grade

Andhra Pradesh, India

2021 – 2023

Indian Institute of Information Technology and Management Gwalior

Bachelor of Technology, Mathematics and Scientific Computing CGPA: 8.01 / 10

Gwalior, India

2023 – 2027

PROJECTS

DOTLOGGER – MERN Stack ChatBot | *Express, React, Node.js, OpenAI API*

- Designed and deployed an AI-powered SaaS chatbot leveraging the MERN stack with OpenAI's GPT-3.5 Turbo API, delivering highly accurate and context-aware conversations.
- Strengthened platform security through multi-layer authentication and validation, reducing potential vulnerabilities by 50%.
- Enhanced user experience by integrating real-time conversational memory and personalization features, leading to a 25% increase in session retention.
- Optimized scalability and system throughput to support 1,000+ concurrent users with minimal latency, ensuring high responsiveness and reliability.

GoFarm – Farm Visit & Produce Marketplace Platform | *React.js, TypeScript, Node.js, Express.js, MongoDB, JWT*

- Built a dual-role marketplace connecting farmers with visitors for farm bookings, listing management, and agri-tourism engagement, achieving 40% faster farmer onboarding and a 25% improvement in booking efficiency.
- Introduced a real-time slot booking and review system, reducing double bookings by 35% workflow that streamlined scheduling.
- Improved user decision-making by 20% through transparent review visibility.
- Established JWT-based authentication with role-based dashboards, ensuring seamless navigation between visitor and farmer functionalities.

CampVista – Explore Camping Spots | *Node.js, Express.js, EJS, MongoDB, Mapbox API, Cloudinary*

- Created an interactive campground discovery platform that attracted 500+ active users, enabling them to share ratings, comments, and reviews, which increased engagement time by 30%.
- Enforced secure user access with Passport.js and Bcrypt, ensuring 100% encrypted credential storage and reducing unauthorized access attempts by 45%.
- Enabled scalable media handling by integrating Cloudinary with Multer, supporting 2,000+ image uploads monthly and improving load times by 25%.
- Showcased campground locations via Mapbox-powered maps with geo-markers, enhancing spatial navigation and boosting user retention by 20%.

SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, TypeScript

Web Development: HTML, CSS, React.js, Node.js, Express.js

Database & Storage: MySQL, MongoDB

Version Control: Git, GitHub

Tools & Platforms: VS Code, Postman, Docker, Cloudinary, Mapbox API

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Soft Skills: Clear communication, Team collaboration, Problem-solving, Active listening

ACHIEVEMENTS

Newbie at CodeForces - Highest Rating of 1167 on CodeForces.

2-star rating on CodeChef, with a highest rating of 1548.

Solved over 500 problems across platforms like LeetCode, GeeksForGeeks, Codeforces, CodeChef.

Secured a **Global Rank of 339** in CodeChef Starters 209 Division 3 among 30,000+ participants.

Secured a **Global Rank of 1,755** in LeetCode Weekly Contest 470 among 30,000+ participants.
